Welcome to the website of the International Association of Hydrogeologists, Danish National Chapter

IAH is a worldwide professional non-governmental organisation for groundwater specialists, with over 3,800 members in more than 135 countries. IAH promotes the sustainable development, use, management, and protection of groundwater resources for the common good. IAH members around the world are organised into national chapters. The role of the Danish National Chapter includes:

- Promotion of activities that further the research, technology, and management of groundwater
- Stimulation of interest of Danish hydrogeologists in the activities of IAH

News and events:

Jan. 11, 2012:
[March 6, 2012 - IAH-DK is organizing a double session on 'Groundwater for Growth, Development and Climate Change Adaptation' at the ATV Winter meeting](#)

September 13, 2011:
[IAH-DK is contributing to the new IAH Commission on Groundwater Outreach for Decision Makers](#)

August 17, 2011:
[Hydrology Day 2011 \(Hydrologidag 2011\) - Oct. 26, 2011](#)

July 6, 2010:
